

Color collection

The professional kitchen new point of view *Il nuovo punto di vista della cucina professionale*

The proposal of new materials and textures to be combined with traditional stainless steel allows you to customize the design of the kitchen environment by adapting it to different stylistic needs without sacrificing functionality and to the efficiency that distinguishes Everlasting products. The choice of the finishing of the refrigerated cabinets is transformed, going from a technical detail to an aesthetic choice.

The proposed color palette gives space to different stylistic solutions starting from delicate pastel tones to darker and more decisive nuances.

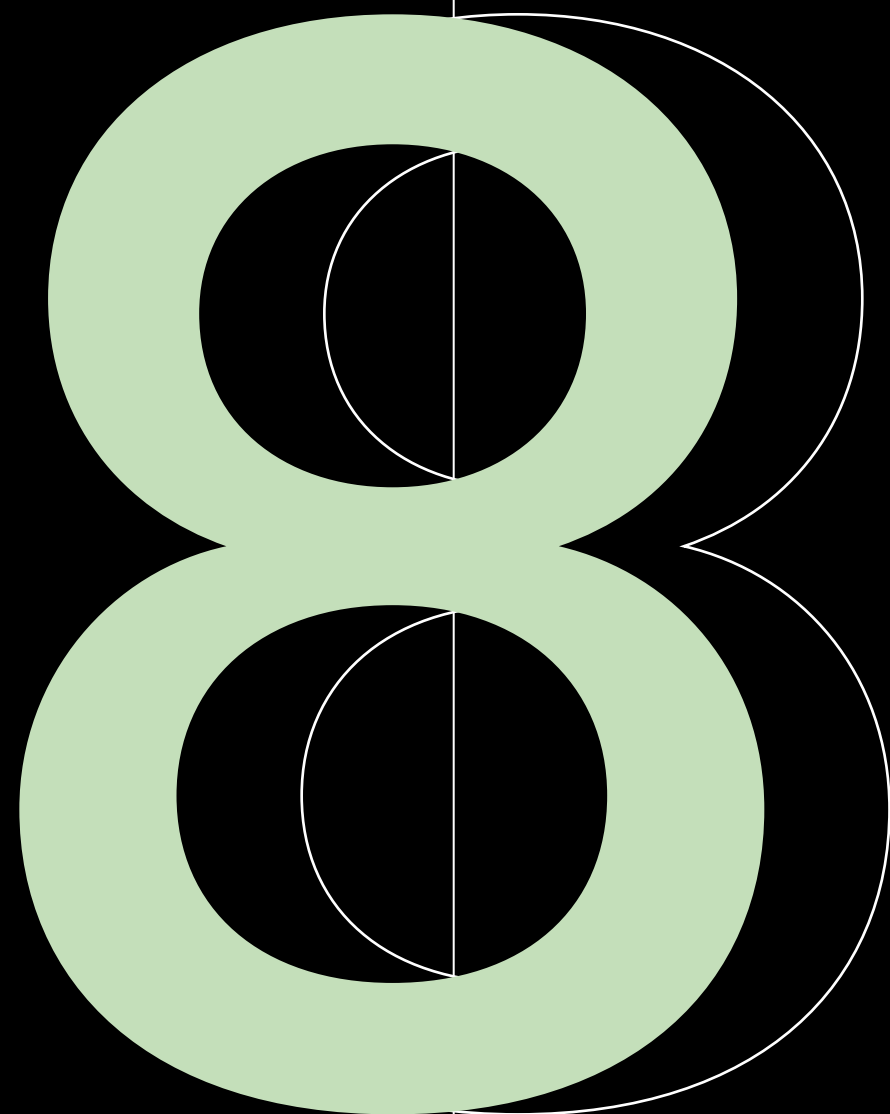

La proposta di nuovi materiali e textures da accostare al tradizionale acciaio inox, permette di personalizzare la progettazione dell'ambiente cucina adattandola a diverse esigenze stilistiche senza però rinunciare alla funzionalità e all'efficienza che contraddistinguono i prodotti Everlasting. La scelta della finitura degli armadi frigoriferi si trasforma, passando da un dettaglio tecnico ad una scelta estetica. La palette colori proposta dà spazio a diverse soluzioni stilistiche partendo da delicati toni pastello a nuance più scure e decise.

Live your business in a different way

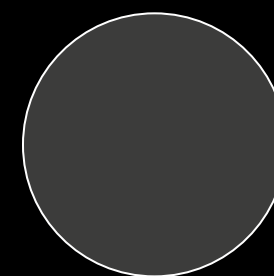

The refrigerated cabinet becomes
part of a personalized and unique
kitchen design project.

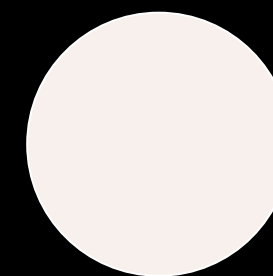

*L'armadio frigorifero diventa
parte integrante di un progetto di
arredamento personalizzato e
assolutamente unico.*
